(54) Title: METHOD OF PRODUCING NANOSTRUCTURE TIPS

(57) Abstract: A method of producing a plurality of apparatuses having carbon nanotube tips includes providing a first substrate (100) having a first surface (102) with a plurality of precursor tips (202), providing a second substrate (300) having a second surface (302) facing the first surface (102), growing a carbon nanotube tip on substantially all of the precursor tips (202), and applying an electrical potential between the second surface (302) and ends of the carbon nanotubes that are distal to the precursor tips.
